Importance: High

Hi Veronica,

Attached is a document containing catalog pricing for your requested items and shipping charges per the spreadsheet Mac provided. Shipping estimates are based on no locations needing truck shipment that requires lift gate service or inside delivery. Those services have an additional charge, but that can't be determined until the actual ordered items are determined per location. When speaking with Mac today it sounded like those services have not been needed in the past but if either of you think that may be the case (locations such as Central Mississippi, First Regional and Jackson/Hinds) then we can add those services into the shipping estimate to be safe. Take a look and see if this document is what you need. If there is anything you need added or changed, just let us know.

Thanks!
Heidi

Heidi,

Here's a spreadsheet that details who and how much MLC is allocating for SLP materials. There are 52 library systems and the spreadsheet shows how many libraries in each system. We are allowing \$50/library plus shipping. So, Central Mississippi has 20 libraries and can spend up to \$1,000 plus shipping.

I hope this helps. Let me know what else I can do.

Mac

Good morning. Not yet. Is it possible for you to send her the number of libraries and or systems that will receive the supplies ordered? She needs this to give me an estimated shipping quote. Thanks.

I am out of the office in a conference.
